

### **Well Done!**

**A huge well done and thank you to all of the children for their hard work, determination and perseverance this week**

**A special well done to our certificate winners**

**Clayton Bird** - Annual Duck Race Sweepstake 2019.

**Charlotte Langley** - Special Award for fantastic maths.

**Eden Bird** - Special Award for speed reading challenge.

**Oliver Meadowcroft, Maddie Benson,**

**Tyler Jackson, Grace Langley and**

**Kieran Manson** - All for excellent behaviour whilst on the Crucial Crew Trip.

**Congratulations to all our award winners this week.**

**Keep up the good work!**

### **Non-Uniform day - Pyjama day**

Remember that this is a bring buns day for the children dressing in their pyjamas. They will be collected by Mrs Jo Atkinson and taken to the Stillington Christmas Fair and sold to raise money for FOSS. I, of course, am making a cake for the raffle.

### **Twitter**

Please join our new Twitter feed (*Stillingtonpri*) to catch up on all of the exciting things that have been happening this term and receive information about forthcoming events. Due to technical issues, the previous Twitter feed (*Stillingtonpri1*) has been archived. You can still access news from prior to last July on the website if you would like to.

### **Children in Need 2019**

On Friday 15 November the children took part in a Duck Race and a pyjama day to raise money for the **Children in Need** appeal. The children and staff had a wonderful time watching the race which took place online at 1pm. There was lots of excitement and cheering and we are pleased to announce that school raised an amazing for **£53.99** the charity!

### **What have the Infants done this week?**

We finished our letters home this week and enjoyed the little walk to the post box to send them off, so look out for the postman! (Please write back, you don't have to post them just pop them through the school letter box so they can be delivered to the class room, thank you.)

The children have worked really hard this week in maths, year 1 have been counting in 5's and 10's and learning how to group them into sets, find their own groups of a given number and write the repeated addition equations to match them. Year 2 have started learning about multiplication, grouping into sets, writing the repeated addition equation and the multiplication equation and making arrays to match a problem.

As Christmas is approaching quickly, we have started making our Christmas cards, calenders' and practicing the play. The children have chosen their parts for the play this week and we have had one practice and are busy learning lots of new songs, next week we will be sending home words or songs they need to learn and a letter about what costume/s your child will need. We can't wait to share our Christmas Nativity with you!

Have a great weekend

Mrs Hanger x

### **What have the Junior's done this week?**

This week the Juniors have started to explore biographies and autobiographies, paying particular attention to how the paragraphs are ordered and structured. In maths, the Year 5 and 6 children have started to explore the features of circles, whilst the younger children have continued to develop their multiplication and division skills. The older children also enjoyed an afternoon at Crucial Crew!

### **Reading**

Please continue to complete your child's reading records when they read at home. It is really useful for us when listening to them read in school to see how they have got on. We are currently revamping the school's reading scheme books to ensure that each child can take home appropriately challenging books. More updates to follow.
