Early Years workshop

On Friday 18th June, Nursery children from Foston and Terrington will be travelling to Stillington Primary School for the morning to meet with the other Early Years children across the three schools. The children will be taking part in a 'Small Animals' workshop from a specialist company. Children will be learning about the life cycles and habitats of different small animals .

If you DO NOT want your child to partake in this event, please email the office no later than Monday the 14th of June.

Sun cream reminder

Hopefully, this fine, sunny weather will continue!

Just a reminder, please, to **apply a high-factor sun cream** to your child BEFORE they come to school and remember to send them to school with a **named** sun hat.

Art Exhibition

The children in KS1 and KS2 will be taking part in an art competition and exhibition, organised by the Diocese of York. The theme is 'being light in difficult times', as we reflect on the difficult 12 months we have all had and think about how we can bring hope and light to this time. There will be more details in next week's bulletin.

All entries will be displayed on the afternoons of 26th and 27th June at Flaxton Village Hall.

Other items of interest:

After School Activities

Old Malton St Mary's Junior Football Club are looking for new players to kick start their preparations for the 2021/2022 season new U7's team.

Please see attached flyer.

'Keep Kids Safe' - road safety initiative

You may be interested in a joint road safety project organised by **York Advanced Motorists (IAM) and the N Yorks Police Fire & Crime Commissioner**. This follows a successful bid by York IAM to win part of the AJ1 Road Safety Fund. Both partners share our federation's vision to learn and grow together - specifically in terms of road safety for children.

Attached is a flyer which gives brief details - start date is planned for July. This project offers parents an opportunity to enhance / refresh all aspects of their driving - therefore improving road safety in the local area. The project demonstrates and encourages driving with skill, responsibility and consideration - safety within and around the vehicle is always the primary objective.
